PROFESSIONAL EXPERIENCE

DXC Technologies | Plano, TX **Dec 2022 - Present**

Senior Helpdesk Support

- Provide enterprise support for managing account access, BitLocker recovery, Windows domain authentication, and VoIP systems.
- Troubleshoot endpoint, application, and network connectivity issues across enterprise Windows environments, including TCP/IP, DNS, DHCP, and Microsoft 365.
- Manage 100+ daily support tickets in ServiceNow while maintaining accurate documentation for incident tracking and audit compliance.

NerdsToGo | Franklin, NJ **Apr 2021 - Dec 2021**

Field Service Technician

- Delivered on-site technical support for residential and commercial clients, resolving hardware, networking, and server-related issues.
- Installed, configured, and maintained Windows Server 2019 systems, including user management, file services, and system updates.
- Deployed and managed virtual machines using Hyper-V to support client infrastructure needs.
- Supported multi-platform environments including Windows, Linux, macOS, and ChromeOS systems.
- Assisted with network setup and configuration, including router, firewall, and endpoint connectivity.

Morris Rehab & Physical Therapy | Morristown, NJ **Nov 2018 - Dec 2021**

Helpdesk Technician

- Administered MySQL Server to support EMR software functionality and ensure data reliability.
- Managed Windows Server 2019 and Active Directory user provisioning with appropriate access controls.
- Maintained account permissions and group memberships following least-privilege practices.
- Provided technical support for workstations, printers, and small-office network infrastructure.
- Assisted with network configuration and troubleshooting for a multi-user office environment.
